

Apologia Biology Module 9: Evolution: Part Scientific Theory, Part Unconfirmed Hypothesis

Vocabulary from Module 9 of Exploring Creation with Biology (2nd Ed.)
By Dr. Jay Wile and Marilyn F. Durnell

www.CrosswordWeaver.com

ACROSS

- 3 Distinct layers of rock
- 6 The theory that natural selection can, over time, take an organism and transform it into a more specialized species of that organism
- 7 Preserved remains of once-living organisms

DOWN

- 1 The hypothesis that processes similar to those at work in microevolution can, over eons of time, transform an organism into a completely different kind of organism
- 2 The _____ of the species is the idea that each individual species on the planet was specially created by God and could never fundamentally change.
- 4 The study of fossils
- 5 Structural _____ is the study of similar structures in different species.

Solution to “Evolution: Part Scientific Theory,
Part Unconfirmed Hypothesis”
Exploring Creation with Biology (Vol. 2) – Module 9
